THE LOST TAPES from 10 years ago!

While we're **waiting this weekend for the results and the live stream** show of the WBF Online Awards **presented by Kryolan Professional Make-up**, we took a deep dive into our archives. During this journey, we felt inspired to re-edit and upload a **long version from the World Bodypainting Festival 2015**.

We call it “**The Lost Tapes**” — nearly one **hour of unreleased footage** from one of the most exciting years in the **28-year history of the festival**.

Discover *never-before-seen interviews, behind-the-scenes moments, and memories that capture the spirit of a truly remarkable year.*

Please share it with your friends and fellow artists – these moments deserve to be seen. Back then, more than 300 artist teams from nearly 50 countries came together. What an incredible global family of bodypainting. Sadly, it's now part of history... but these memories live on.

Stay creative. Stay inspired. Stay colorful.
